

S-25 2DR Maryland Community Colleges 2023 Report on Students Registering for Accommodations for Disabilities- Due March 1, 2024

Instructions:

All 16 Maryland community colleges are required to submit this survey each year. Created in collaboration with institutions and State agencies, this report is used to provide the Commission with enrollment data about college students who registered for accommodations for disability services, and to help the Commission, colleges, and the State analyze retention and graduation outcomes for these students.

This year is the fourth full cycle of data collection on the Degree Progress Analysis cohort in 2023. Institutions must match their Fall 2019 Degree Progress Analysis (DPA) records to data on students with disabilities who registered with the institution's office of disability services in the 2019-2020 academic year. Institutions should ensure the proper calculation of the cohort for analysis, students who graduated and/or transferred, and successful persisting students.

All community colleges must complete, in full, the DPA worksheet posted at https://data.mhec.state.md.us/mac_community_college_calendar.asp. Ensure the data aligns with what is reported on the S-25 2DR form.

This form will be active until March 1, 2024. You may edit your answers as needed until then through the "Edit response" link in the submission confirmation message and email. Please save this email.
